Project Idea

Sanad is a web-based system developed for a volunteer organization to manage its online presence and streamline communication with the public. The website allows individuals to apply as volunteers by submitting their information through a structured form, as well as contact the organization for inquiries or support and stores form data in a database that can then be accessed by the administrators through the website.

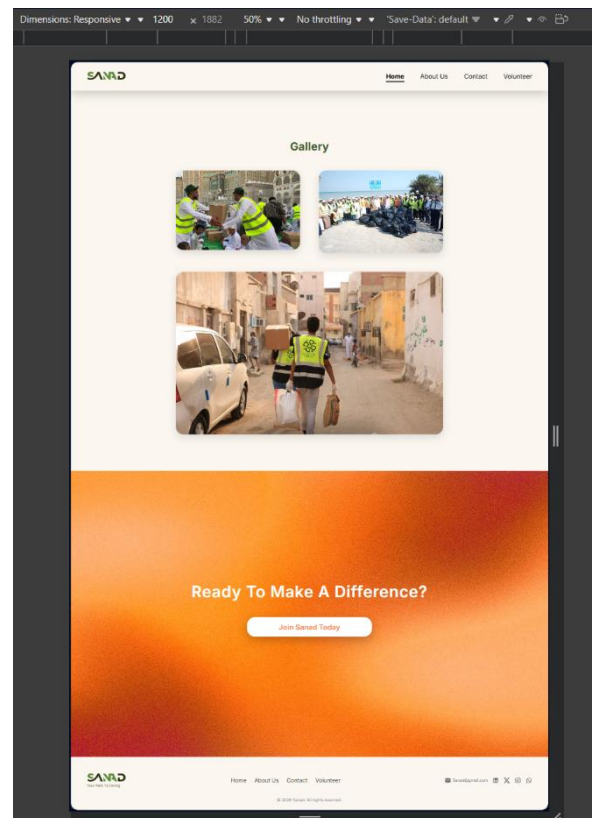

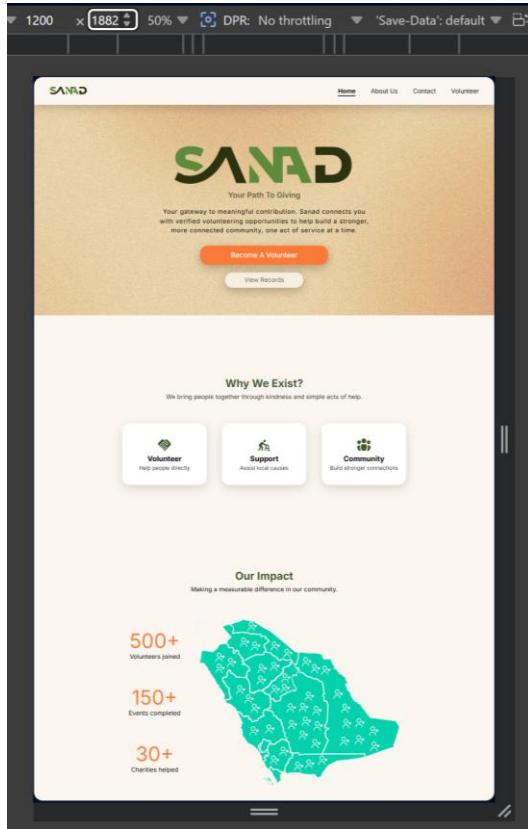

Database Setup Description

We used a local database for data storage in our system. A copy of that database has been exported and included in the project repository for ease of setup and testing.

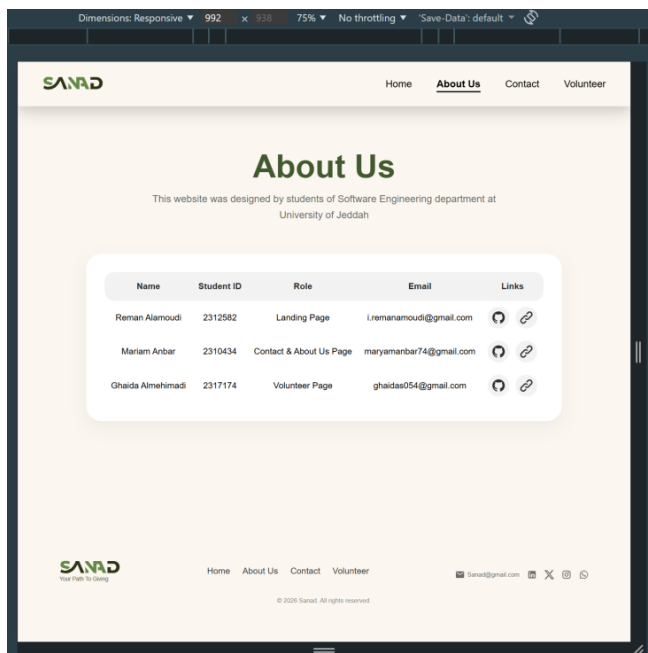

The database file can be found in the attached project folder on GitHub. To initialize the system, the provided sanad_db.sql file should be imported into the database environment. This file contains the required tables and sample data necessary for the system to function correctly.

Contact Page

992px:

The screenshot shows a web browser window with a width of 992px. The page is titled "Contact Us" and features a light beige background with a dark blue header and footer. The header includes the SANAD logo and navigation links: Home, About Us, Contact (active), and Volunteer. The main content area has a heading "Contact Us" followed by the text "We're here to help — reach out any time." Below this is a white box containing contact information: a location pin icon for "Al Faisaliyyah, Jeddah - Saudi Arabia", a phone icon for "012 123 567", and an email icon for "Sanad@gmail.com". Social media icons for LinkedIn, X, Instagram, and WhatsApp are also present. The "Send Us a Message" section contains a form with fields for "First Name", "Last Name", "Gender" (Female/Male), "Date of Birth", "Language", "Email Address", "Phone Number (05xxxxxxxx)", and a "Message" text area. An orange "Submit" button is at the bottom of the form. The footer includes the SANAD logo, navigation links, contact information, social media icons, and a copyright notice: "© 2025 Sanad. All rights reserved."

    popupTitle.textContent = "Sorry, we found some invalid input";
    popupMessage.innerHTML = errors.join("<br>");
    popupMessage.style.color = "red";

    return;
}

```

The screenshot shows a web form titled "Volunteer Preferences" with a navigation bar at the top containing links for Home, About Us, Contact, and Volunteer. The form is divided into sections: "Area of Interest" with buttons for Education, Events, Food Distribution, and Technical Support; "What are your skills?" with a text input field; "Availability" with buttons for Morning, Afternoon, and Evening; and "Languages" with buttons for Arabic, English, and Hindi. A modal error message is displayed in the center, titled "Sorry, we found some invalid input", listing the following errors: First Name is missing, Last Name is missing, Gender is missing, Date of Birth is missing, Email is missing, Phone Number is missing, Skills is missing, Area of Interest is missing, Availability is missing, and Languages is missing. The modal has an "OK" button. A "Submit" button is located at the bottom of the form.

```

if (!emailValue) {
    errors.push("Email is missing");
} else if (!emailPattern.test(emailValue)) {
    errors.push("Invalid email format");
    emailError.textContent = "Invalid email format";
}

const phoneValue = phoneInput.value.trim();
const phonePattern = /^05[0-9]{8}$/;

if (!phoneValue) {
    errors.push("Phone Number is missing");
} else if (!phonePattern.test(phoneValue)) {
    errors.push("Invalid phone number format");
    phoneError.textContent = "Phone must start with 05 and be 10 digits";
}

```

The screenshot shows a web application for volunteer registration. The header includes the 'SAND' logo and navigation links: Home, About Us, Contact, and Volunteer. The form contains several sections: 'Email Address' with a value of 'aaa' and an error message 'Invalid email format'; 'Phone Number (05xxxxxxx)' with a value of 'aaa' and an error message 'Phone must start with 05 and be 10 digits'; 'Volunteer Preferences' with 'Area of Interest' (Education, Media) and 'What are you interested in?' (CSS); 'Availability' with options 'Morning', 'Evening', 'Weekdays', and 'Weekends'; and 'Languages' with options 'Arabic', 'English', and 'French'. A modal dialog is displayed in the center with the title 'Sorry, we found some invalid input' and two error messages: 'Invalid email format' and 'Invalid phone number format'. An 'OK' button is at the bottom of the modal. A 'Submit' button is at the bottom of the form.

```

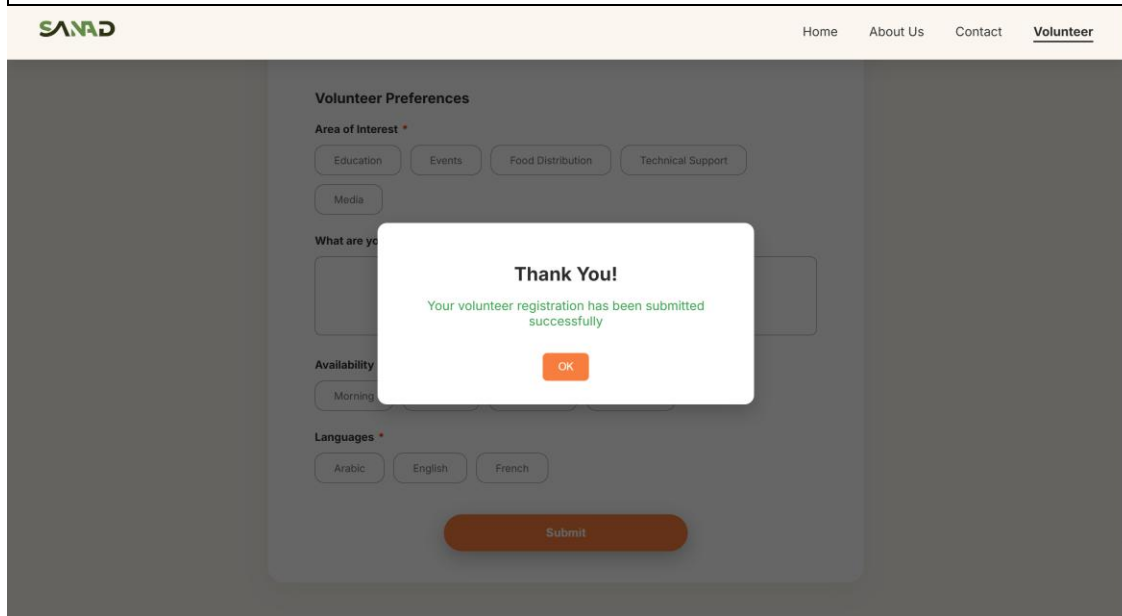

if (result.toLowerCase() === "success") {
    isSuccess = true;

    popupTitle.textContent = "Thank You!";
    popupTitle.style.color = "#2b2b2b";

    popupMessage.textContent = "Your volunteer registration has been submitted successfully";
    popupMessage.style.color = "#28a745";

    form.reset();
    phoneError.textContent = "";
    emailError.textContent = "";
}

```

Database Error Connection

```
else {  
    isSuccess = false;  
  
    popupTitle.textContent = "Unable to process your request";  
    popupMessage.textContent = "Database connection error";  
    popupMessage.style.color = "red";  
}  
})  
.catch(() => {
