

GHAIDA SAMEER ALMEHMADI

Software Engineering Student • Seeking Summer Internship
ghaidasameer17@gmail.com • Jeddah, KSA • [Portfolio](#) • [GitHub](#) • [LinkedIn](#)

OBJECTIVE

Software Engineering student who sees programming as a way to think and solve real-world problems — not just write code. Experienced in full-stack web development, software testing, and Agile delivery. Seeking a summer internship where I can contribute meaningfully and grow within a professional environment.

PROJECTS

Atelier — Art Marketplace Web Platform

HTML • CSS • JavaScript • Node.js • MongoDB • Figma • Agile/Scrum | CCSW 315, Fall 2025

- Full-stack platform connecting artists, collectors, and buyers — with browsing, commissions, wishlist, cart, and checkout features.
- Delivered across 3 Agile sprints with complete documentation: backlog, user stories, diagrams, and test cases.
- Integrated an AR feature for visualizing artworks in real environments; built RESTful API endpoints using Node.js/Express with MongoDB.
- Designed all UI in Figma; implemented responsive web and mobile views across all pages.

Personal Portfolio Website | [Live Site](#)

HTML • CSS • JavaScript • GitHub Pages

- Responsive portfolio with editorial design, downloadable CV, and anonymous message feature.

Sanad — Volunteer Management System

HTML • CSS • JavaScript • Node.js

- Full-stack volunteer platform with role-specific pages, input validation, and RESTful API.
- Verified HTML validity (zero errors) and ensured responsive design at three breakpoints.

WordPress Comment System — Software Testing & Analysis

Postman • LocalWP • Input Space Partitioning • Graph-Based Testing

- Designed and executed 8 test cases using ISP and Graph-Based Testing models — 100% pass rate via Postman.

TECHNICAL SKILLS

Languages: Java • JavaScript • Python (Basics)

Web: HTML • CSS • Node.js • REST APIs • Responsive Design

Databases: SQL • MongoDB

Design & SE: Figma • Data Structures • Design Patterns • Software Requirements • Agile/Scrum

Tools: Git • GitHub • Postman • Trello • LocalWP

EDUCATION

Bachelor of Software Engineering — University of Jeddah

Expected 2027 | Fourth-Year | Academic Excellence Award

CERTIFICATIONS

Agile Methodology • Project Management • Java EE App Development (AD183) — Red Hat • Red Hat System Administration I (RH124)
